Subject Conditional Notice of Approval
Nos. 26 and 29 Furnaces
N.B.--H.S. Sherman has original approval-w

Dear Mr. Borden

Attached for your information is a copy of a conditional approval for the dust collectors on No. 26 and No. 29 furnaces to be used in processing radioactive columbium ores.

Engineering and Construction is proceeding with detailed plans and obtaining quotes for the dust collector. They are awaiting clarification of quotes from manufacturers before placing an actual order. It appears now that the best delivery we can expect will be twenty-two weeks with a minimum of four weeks installation after the collector arrives, providing all preliminary work is done before the collector arrives. Providing orders are placed next week, it appears we will not be ready to operate on Axara ore until late May.

Very truly yours,

A. H. Soeder

ADDRESS REPLY TO
252 Niagara Street
Buffalo, N. Y. 14201
DATE November 3, 1965

Att: Mr. H. S. Sherman, Asst. Supt -Engineering & Maintenance
NOTICE OF PLAN APPROVAL (CONDITIONAL)

Plan No BEP-188-65
Location of System 137 47th St., Niagara Falls
Ferro Alloy Smelting, Bldg. 29, Dept C6F, 2nd Fl.

We are pleased to advise you that the plans you submitted to the Department of Labor for an exhaust system to be installed or altered have been approved.

☐ One set of these plans is returned herewith.

☒ One set of these plans, and a notice of determination regarding compliance with the New York State Air Pollution Control Board's "Rules to Prevent New Air Pollution", will be forwarded to you by that Board.

The above **CONDITIONAL** approval is granted subject to the following:

1. Velocity and visual tests to be performed by the Division of Industrial Hygiene to determine effectiveness of control at hoods.

When the system has been installed or altered, and is ready for test, kindly notify the office of the Division of Industrial Safety Service at the following address New York State Department of Labor, Division of Industrial Safety Service, 65 Court St., Buffalo, N. Y. - Att: Mr. P. A. Sonner, Supervising Inspector.

This approval is based upon conformance to standards and requirements of the Labor Law and to the applicable industrial codes of the State of New York. You are responsible for determining whether emissions from the system meet the requirements of any local air pollution ordinances. If any alterations of or additions to the above system are required which would change its operating characteristics, it will be necessary for you to submit revised plans to the Division of Industrial Hygiene for approval prior to making such alterations or additions.
